QUICK-PAYMENT 2007™ RECEIVES TOP SCORE FOR SOFTWARE QUALITY!

[San Jose, CA, August 21, 2007]—TuCows announced today that the payment enabling application **Quick-Payment 2007™**, has received the prestigious 5 Cows award from TuCows <www.tucows.com>. The TuCows awards are the Super Bowl of software with 5 Cows being the highest award given for superior software design and is held in high regard by developers as the "one." award to get.

"TuCows impartial evaluation is important to us because their standards for software are very high and designed to steer consumers to only the best solutions" said Ernest Cook, president of BIG Software Inc. Many months in development, Quick-Payment 2007 is the Office Accounting add-in that allows new payment processor choices while also simplifying credit card payment management with reporting and "Quick Research" tools.

The TuCows Ratings Guide is broken down into these categories: usability, help, documentation, support, program enhancements, and overall evaluation. Each criterion contains separate categories that derive the overall score for each criterion. Overall, Quick-Payment 2007 scored one of the highest ratings ever given by TuCows, 47 out of the possible 53 points.

Quick-Payment is available for purchase immediately at www.BIGSoftwareInc.com
